

The following tips are recommended for driving in reduced visibility due to smoke from wildfires:

- Check traffic immediately around your vehicle (front, back and to the side) and begin slowing down.
- Do not stop in the travel lane unless the vehicle traffic in front of you has come to a stop.
- Look for a safe place to pull completely off the paved portion of the roadway.
- Stop the vehicle in a position ensuring it is a safe distance from the main roadway and not near where any vehicles may travel.
- Turn off all vehicle lights.
- Set your emergency brake and take the foot off the brake.
- Stay in the vehicle and keep your seat belts on.
- Wait for the visibility to improve before re-entering the roadway.

To stay up-to-date with the latest highway conditions around the state, visit the ADOT Traveler Information Center at www.az511.gov or call 5-1-1.
